Schneider Electric

DATA SHEET

C6342D630

Industrial automation components

Manufacturer	Schneider Electric
Catalog number	c6342d630
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	690 V
Current	630 A
Frequency	50 - 60 Hz
Signal Type	690
Signal Level	690 V
Relay Specifications	690 VAC

Description

The C6342D630 is an advanced relay from Schneider Electric, designed for operation in systems with a voltage of 690V and a current of 630A. The device supports frequencies ranging from 50 to 60 Hz, making it a versatile solution for various industrial applications. Both the signal type and signal level are 690, ensuring high reliability and precision in operation. The relay specification is tailored to meet the demands of modern electrical installations.
