| Catalog number | 1saj520000r0101 |
| Category | Industrial automation components |
| Product type | Industrial automation components |
| Status | Active product |

Technical specification

| | |
|---------------------------------|------------|
| Current | 1 A |
| Product Type | Motor |
| Signal Type | 24 |
| Signal Level | 24 V |
| Relay Specifications | 230 VAC |
| Voltage | 24 V |
| Power | 9 W |
| Frequency | 50 - 60 Hz |
| Component Specifications | umc100 |

Description

The ABB motor operates at a voltage of 24V and a current of 1A, delivering a power output of 9W. It is designed for operation within a frequency range of 50-60 Hz, making it suitable for applications requiring precise control. The product adheres to the component specification umc100, ensuring high quality and reliability. The signal type and signal level are both 24, making it appropriate for various industrial applications. Additionally, the relay specification of 230 highlights its versatility in automation systems.
