Manufacturer	Eaton
Catalog number	xv-152-d6-10tvr-10
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Display Size	10.4 inches
Display Resolution	640 x 480 pixels
Touch Technology	Resistive type
Supply Voltage (DC)	24 V DC
Operating Temperature Range	0°C to 60°C
Enclosure Material	Metal, anodized material
Certifications	UL508, cUL certifications
Ethernet Interface	Yes interface
RS232 Interface	Yes interface
RS485 Interface	Yes interface
CANopen Interface	Yes interface
USB Device Interface	Yes interface

Description

The Eaton XV-152-D6-10TVR-10 is a 10.4-inch touch panel designed for industrial automation applications. Manufactured by Eaton, a leader in electrical engineering and automation, this device offers a high-resolution TFT color display with a VGA resolution of 640 x 480 pixels.

It features a resistive touch technology, ensuring reliable input detection. The panel operates on a 24 V DC supply voltage, with a typical range between 20.4 V and 28.8 V DC. Connectivity options include Ethernet, RS232, RS485, and CANopen®, facilitating seamless integration into various

automation systems.

The device is housed in a durable metal enclosure with an anodized finish, providing robust protection in industrial environments. It supports a wide operating temperature range from 0°C to 60°C, making it suitable for diverse industrial settings.

The XV-152-D6-10TVR-10 is UL508 and cUL approved, ensuring compliance with international safety standards. Its compact design and versatile features make it an ideal choice for applications requiring reliable human-machine interface solutions.
