Manufacturer	Siemens
Catalog number	1pm4103-2lz26-1ds1-z
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Siemens
Part Number	1PM4103-2LZ26-1DS1-Z
Product Type	Synchronous Servomotor
Rated Voltage	400V
Protection Class	IP65

Description

The Siemens 1PM4103-2LZ26-1DS1-Z is a high-performance synchronous servomotor designed for precise and dynamic motion tasks in automation technology and specialized industrial applications. It offers high power density and efficiency for demanding drive tasks.

With its robust construction and high torques, it is ideal for use in robotics, machine tools, and other demanding systems. Technical specifications include a rated voltage of 400V, as well as a digital interface for integration into complex control systems.

The high protection class IP65 protects the motor against dust and water spray. These servomotors are used in factory automation, mechanical engineering, and robotics. Their reliability and precision make them a top-class component for industrial drive solutions.
