Manufacturer	Siemens
Catalog number	2kj3501-6aa07-0ab2-z
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Siemens
Part Number	2KJ3501-6AA07-0AB2-Z
Product Type	Bevel Geared Motor
Gear Ratio	Specific to model
Mounting Configuration	Tailored to industrial applications

Description

The Siemens 2KJ3501-6AA07-0AB2-Z is a high-quality bevel geared motor designed for industrial applications requiring reliable and efficient power transmission. Manufactured by Siemens, a leading provider of automation solutions, this motor is part of the SIMOGEAR series, known for its robust performance and versatility.

The 2KJ3501-6AA07-0AB2-Z model features a specific gear ratio and mounting configuration tailored to meet the demands of various industrial processes. Its durable construction ensures longevity and consistent operation, making it an ideal choice for applications where precision and reliability are paramount.

This motor is suitable for integration into systems requiring precise speed control and torque transmission, such as conveyors, mixers, and other machinery in manufacturing and processing industries.

Its compatibility with Siemens' automation systems allows for seamless integration and optimal performance.
