Manufacturer	Siemens
Catalog number	6-ew-1861-2ac-e220-g540wrgd
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Input Voltage	230 V AC
Output Voltage	5 V DC
Output Current	40 A
Product Type	Modular Power Supply
Product Family	SINUMERIK

Description

The Siemens 6EW1861-2AC is a modular power supply unit designed for the SINUMERIK 800 series automation systems. Operating at an input voltage of 230 V AC, it delivers a stable 5 V DC output at 40 A, ensuring reliable power for industrial applications.

This power supply is integral to the SINUMERIK 880 G type control systems, providing essential power for precise control and operation. Its robust design and high output current make it suitable for continuous operation in demanding industrial environments.

The 6EW1861-2AC is part of Siemens' SINUMERIK range, known for its advanced automation solutions.
