Manufacturer	Siemens
Catalog number	6av3637-1ml02-3cc0-z
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Processor Speed	200 MHz
Display Size	10.4 inches
Display Type	TFT color
RAM Size	32 MB
Hard Disk Size	1.6 GB
Connection Type	Point-to-point

Description

The Siemens 6AV3637-1ML02-3CC0-Z is a high-performance Human-Machine Interface (HMI) panel designed for seamless integration into industrial automation systems. Manufactured by Siemens, a leader in automation technology, this model offers a robust solution for operator control and monitoring tasks.

Key features include a Pentium 200 MHz processor, a 10.4-inch TFT color display, 32 MB RAM, and a 1.6 GB hard disk, ensuring efficient operation and responsiveness. The panel supports point-to-point connections, facilitating straightforward integration with various automation components.

Its compact design and durable construction make it suitable for diverse industrial environments, providing operators with intuitive control and real-time monitoring capabilities. This HMI panel is ideal for applications requiring reliable and efficient human-machine interaction in industrial settings.
