Operating System	Windows XP Professional

Description

The Siemens 6BK1000-4RW03-0XX0 is part of the Siemens Box PC 500 series, designed for industrial automation applications requiring robust computing solutions. This model is equipped with a Core 2 Duo E6600 processor, 1 GB RAM, and a 160 GB HDD, ensuring reliable performance for demanding tasks.

It features a 3D graphics card and four USB ports, facilitating versatile connectivity options. The system operates on Windows XP Professional, providing a stable environment for industrial applications.

Its compact design allows for flexible integration into various industrial settings, making it suitable for tasks such as process control, data acquisition, and machine monitoring. The Box PC 500 series is known for its durability and efficiency, meeting the rigorous demands of industrial environments.
