Manufacturer	Siemens
Catalog number	6bk1800-8cf00-0xx0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Processor	Intel Core i7-610E GHz
Processor Speed	2.53 GHz
Memory	8 GB
Storage	250 GB
Network Ports	2 Gigabit Ethernet

Description

The Siemens 6BK1800-8CF00-0XX0 is a model from the SIMATIC IPC847C series, a high-performance industrial rack PC designed for demanding automation tasks. This model features a robust Intel Core i7-610E processor operating at 2.53 GHz, ensuring efficient processing capabilities for complex applications.

Equipped with 8 GB of DDR3 RAM, it offers reliable memory performance to handle multitasking and data-intensive processes. The system includes a 250 GB SATA hard drive, providing ample storage for operational data and software.

Connectivity options are extensive, featuring two Gigabit Ethernet ports (RJ45), one DVI-I port for video output, audio interfaces, two serial COM ports, one parallel LPT port, two PS/2 ports for keyboard and mouse, and six USB 2.0 ports (four at the rear and two at the front), facilitating versatile peripheral connections.

Designed with industrial environments in mind, the IPC847C operates within a wide voltage range of 100 to 240 V AC, accommodating various power supply standards. Its durable construction ensures reliable performance in demanding conditions, making it suitable for applications requiring continuous operation and high processing power.
