Ask about this product

Manufacturer	Siemens
Catalog number	6es5246-4ua31-e-stand-09
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Siemens
Part Number	6ES5246-4UA31
Product Type	Incremental Positioning Module
Product Family	SIMATIC S5
Encoder Type	Incremental
Digital Inputs	4 per axis
Digital Outputs	2 per axis
Analog Outputs	1 per axis
Dimensions	20 x 233 x 160 mm
Weight	400 g

Description

The Siemens 6ES5246-4UA31 E-Stand 09 is an incremental positioning module from the SIMATIC S5 series, designed for precise control of DC drives with incremental encoders. This module enables accurate positioning tasks within automated production environments, making it suitable for integration into complex production lines.

Crafted from robust industrial-grade components, the 6ES5246-4UA31 is engineered for reliable long-term operation in demanding manufacturing settings. With a compact design, it fits seamlessly into SIMATIC S5 PLC setups and ensures consistent performance even under continuous use.
