Manufacturer	Siemens
Catalog number	6es7614-1ah03-0ab3-z
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	CPU Module
Memory Capacity	128 KB
Power Supply	24V DC
Dimensions	13.20 x 15.40 x 9.00 cm
Weight	0.529 kg
Interface	RS-485

Description

The Siemens 6ES7614-1AH03-0AB3-Z is a central processing unit (CPU) module designed for the SIMATIC S7-300 series, specifically the CPU 614. This processor module is integral to industrial automation systems, offering reliable performance for various applications.

It features a memory capacity of 128 KB, suitable for handling moderate-sized programs and data. The module operates with a 24V DC power supply, ensuring compatibility with standard industrial power systems.

Its compact dimensions of 13.20 x 15.40 x 9.00 cm and weight of 0.529 kg make it suitable for installations where space and weight are considerations. The 6ES7614-1AH03-0AB3-Z is equipped with an RS-485 interface, facilitating communication within industrial networks.

This CPU module is ideal for applications requiring a balance between processing power and memory capacity, such as control systems in manufacturing processes. Its design emphasizes durability and efficiency, aligning with Siemens' reputation for quality in industrial automation components.
