Manufacturer	Siemens
Catalog number	6es7711-1ca11-1gb1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Processor	Intel Pentium 4 GHz
Processor Speed	2.0 GHz
RAM	256 MB
Display Size	14.1 inch
Display Resolution	1024 x 768 pixels
Hard Drive	40 GB
Operating System	Windows 2000 English with MUI GFSI

Description

The Siemens 6ES7711-1CA11-1GB1 is a high-performance SIMATIC Field PG, designed for demanding industrial automation tasks. Equipped with a Pentium 4 processor running at 2.0 GHz and 512 KB of second-level cache, it ensures efficient processing capabilities.

The device supports Siemens' STEP 7, STEP 5, and STEP 7 MicroWin software, facilitating versatile programming and configuration. It features 256 MB of DDR-RAM, a 14.1-inch TFT XGA display with a resolution of 1024 x 768 pixels, and includes a DVD-ROM/CD-RW drive for versatile media handling.

The 40 GB EIDE hard drive provides ample storage for project files and software. Operating on Windows 2000 English with MUI GFSI, it offers a stable and compatible environment for industrial applications.

The device is equipped with a power cable suitable for various international standards, including Germany, France, the Netherlands, Spain, Belgium, Austria, Sweden, and Finland, ensuring broad compatibility for global operations.
