Manufacturer	Siemens
Catalog number	6ra2610-6dx30-0a
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Siemens
Part Number	6RA2610-6DX30-0A
Product Type	Thyristor Rectifier Device
Series	SIMOREG
Control System Compatibility	D200/11 MREQ-GCK 6X30

Description

The Siemens 6RA2610-6DX30-0A is a thyristor rectifier device from the SIMOREG series, designed for precise control of DC motors in industrial automation applications. This device features a 6-pulse bridge circuit, providing efficient and reliable operation for various industrial processes.

Its robust design ensures durability and consistent performance, making it suitable for demanding environments. The 6RA2610-6DX30-0A is compatible with Siemens' D200/11 MREQ-GCK 6X30 control system, facilitating seamless integration into existing automation setups.

This component is ideal for applications requiring precise motor control and high operational reliability.
