Manufacturer	Siemens
Catalog number	6se5581-3la11-6av4530-1bc01-7ja0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Siemens
Part Number	6SE5581-3LA11 6AV4530-1BC01-7JA0
Product Type	Communication Processor Module
Application Area	Industrial Automation Systems
Network Compatibility	SINEC LI

Description

The Siemens 6SE5581-3LA11 6AV4530-1BC01-7JA0 is a specialized industrial automation component designed for integration within Siemens Simatic S5 systems. This module serves as a communication processor, facilitating efficient data exchange between the central processing unit (CPU) and peripheral devices.

It is engineered to support various communication protocols, ensuring seamless connectivity and reliable operation in complex automation environments. The module's robust construction and compatibility with Siemens' proprietary technologies make it a valuable asset for enhancing system performance and reliability.

Ideal for applications requiring high-speed data processing and real-time communication, this component is suitable for industries such as manufacturing, process control, and automation systems integration.

Its design emphasizes durability and efficiency, aligning with Siemens' commitment to quality and innovation in industrial automation solutions.
