Manufacturer	Siemens
Catalog number	6sl3120-1te21-8aa4-6sl3162-2ma00-0aa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Input Voltage	600 V DC
Output Voltage	400 V AC
Output Current	18 A
Cooling Method	Internal air cooling
Communication Protocol	DRIVE-CLiQ

Description

The Siemens 6SL3120-1TE21-8AA4 is a single motor module from the SINAMICS S120 series, designed for industrial drive applications. This module converts a 600 V DC input into a 3-phase 400 V AC output, delivering a rated output current of 18 A.

It features internal air cooling and integrates seamlessly with the DRIVE-CLiQ communication system, facilitating efficient motor control and diagnostics. Commonly utilized in machine-level motion control, drive retrofit systems, and modular production lines, this module offers a compact and reliable solution for various industrial automation needs.
