Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Siemens
Part Number	6SN1121-0BA11-0AA0 V2.4
Product Type	SIMODRIVE 611-A Closed-Loop Control Unit
Application Area	Main Spindle Drives
Compatibility	Siemens Servo Motors, SINUMERIK 840D

Description

The Siemens 6SN1121-0BA11-0AA0 V2.4 is a SIMODRIVE 611-A closed-loop plug-in control unit designed for main spindle drives in industrial automation applications. Manufactured by Siemens, this control unit is part of the SIMODRIVE family, known for its precision and reliability in motion control systems.

The 6SN1121-0BA11-0AA0 V2.4 model offers enhanced performance features, making it suitable for demanding spindle control tasks. Key characteristics include its compatibility with various Siemens servo motors, support for high-speed spindle operations, and integration capabilities with Siemens' SINUMERIK 840D control systems.

This control unit is ideal for applications requiring precise spindle speed and position control, such as CNC machining centers and automated manufacturing lines. Its robust design ensures durability and consistent performance in industrial environments.
