Manufacturer	Siemens
Catalog number	c98043-a1001-l8-10
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Siemens
Part Number	C98043-A1001-L8-10
Product Type	SINAMICS DCM Control Unit
Product Series	SINAMICS DCM
Firmware Compatibility	Versions 1.1, 1.2, 1.3
Terminal Arrangement	Specific connector and terminal configuration

Description

The Siemens C98043-A1001-L8-10 is a component of the SINAMICS DCM (Direct Current Motor) drive system, designed for precise control and operation of DC motors in industrial automation applications. This control unit is integral to the SINAMICS DCM series, which offers advanced features for DC motor control, including high-performance torque and speed regulation.

The C98043-A1001-L8-10 variant is part of the L8 series, indicating specific configurations tailored for particular operational requirements. Key characteristics of this control unit include its compatibility with various firmware versions, ensuring adaptability and support for different system configurations.

Additionally, the unit features a comprehensive terminal and connector arrangement, facilitating seamless integration into existing drive systems. Its robust design ensures reliable performance in demanding industrial environments, making it a suitable choice for applications requiring precise and efficient DC motor control.
