Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Siemens
Part Number	C98043-A1047-L3-28Z
Product Type	Control Unit
Product Family	SIMOREG
Application Area	Industrial Automation

Description

The Siemens C98043-A1047-L3-28Z is a specialized control unit designed for advanced control applications in industrial automation systems. Manufactured by Siemens, this component is integral to the SIMOREG series, which is renowned for its precision and reliability in controlling DC drives.

The C98043-A1047-L3-28Z variant offers enhanced features tailored for complex automation tasks, ensuring optimal performance and efficiency. Its robust design and compatibility with various Siemens automation systems make it a preferred choice for industries requiring high-performance control solutions.

This control unit is ideal for applications where precise speed and torque control of DC motors are essential, such as in metal processing, paper mills, and other heavy-duty industrial processes. Its advanced features contribute to improved system stability and reduced downtime, thereby enhancing overall productivity.
