Manufacturer	Siemens
Catalog number	siemens-6fc5114-0ab01-0aa1-power-supply
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Siemens
Part Number	6FC5114-0AB01-0AA1
Product Type	Power Supply Module
Application Area	Industrial Automation
Input Voltage	115-230 V AC
Output Voltage	5.1 V DC
Output Current	30 A
Power Rating	300 VA

Description

The Siemens 6FC5114-0AB01-0AA1 is a power supply module designed for the SINUMERIK 840C/840CE central unit. Operating within a voltage range of 115-230 V AC, it provides a DC output of 5.1 V at 30 A, delivering a total power of 300 VA.

This module is essential for ensuring stable and reliable power distribution to the central processing unit of SINUMERIK 840C/840CE systems, which are widely used in industrial automation applications.

The 6FC5114-0AB01-0AA1 is known for its robust construction and compatibility with various industrial environments, making it a critical component for maintaining the performance and longevity of automation systems.
