Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Siemens
Part Number	6SC9830-0BD30
Alternative Part Number	459 002.9213.30
Product Type	Interface and Signal Transducer Module
Compatible Devices	6SE3626/52/78 series, 6SE5226/52 series

Description

The Siemens 6SC9830-0BD30 459 002.9213.30 is an interface and signal transducer module designed for integration with Siemens' SIMOVERT-P drive systems. This module serves as an adaptation unit, facilitating seamless communication between various components within the drive system.

It is specifically tailored for devices such as the 6SE3626/52/78 series and the 6SE5226/52 series, ensuring compatibility and optimal performance. The module's robust design and precise engineering make it a reliable choice for enhancing the functionality and efficiency of industrial automation processes.
