Yaskawa

DATA SHEET

EUOP-SI-ES3

Industrial automation components

Manufacturer	Yaskawa
Catalog number	euop-si-es3
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

No technical specifications available.

Description

Comm. Interface U1000 EtherCAT. Note: The SI-ES option card will replace the EUOP-SI-ES3 card. Both cards will be available in parallel for a certain period of time. On the SI-ES3 card a few functions work in a different way than on the EUOP-SI-ES3 card. Therefore we recommend: a) not to mix SI-ES3 and EUOP-SI-ES3 cards in one project. b) use the SI-ES3, NOT EUOP-SI-ES3 for new projects. Information on compatibility can be obtained from our technical support
