

3BSC610037R1

Industrial automation components

Manufacturer	Abb
Catalog number	3bsc610037r1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Current	2.5 A
Component Specifications	sd821
Signal Type	230
Signal Level	230 V
Relay Specifications	230 VAC
Voltage	230 V

Description

The 3BSC610037R1 relay from ABB is an advanced device designed for operation in systems with a voltage of 230V. It features a working current of 2.5A and a component specification of sd821. The relay handles a signal level of 230, ensuring high reliability and precision in industrial applications. With its robust construction and high-quality materials, this product is an ideal solution for demanding industrial environments.
