

3HAA3563-AUA/1 DSQC 258

Industrial automation components

Manufacturer	Abb
Catalog number	3haa3563-aual-ds qc-258
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	ABB
Part Number	3HAA3563-AUA/1
Product Type	Power Supply Module
Input Voltage	230 VAC
Input Current	6.3 A
Output Voltage	5 V
Output Current	7 A

Description

The ABB 3HAA3563-AUA/1, also known as DSQC 258, is a power supply module designed for ABB's S3 and S4 robotic systems. This module ensures stable voltage and current outputs, essential for the optimal operation of robotic applications. With its robust design, the DSQC 258 provides a high level of protection against electrical disturbances, enhancing the reliability of robotic operations in various industrial environments. Featuring a compact form factor, it facilitates easy integration within existing systems, while its compatibility with multiple ABB robot models makes it an indispensable component for advanced automation solutions. The DSQC 258 meets stringent performance standards, ensuring long-term durability and minimal maintenance requirements, ultimately leading to a reduction in operational downtime and enhanced productivity.
