

## 3HAB2214-1

Industrial automation components

<b>Manufacturer</b>	Abb
<b>Catalog number</b>	3hab2214-1
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Weight</b>	2.47 kgs
<b>Weight</b>	2.47 kg
<b>Product Type</b>	Combi I/O Module
<b>Brand</b>	ABB
<b>Part Number</b>	3HAB2214-1
<b>Application Area</b>	Industrial Automation
<b>Robot Model Compatibility</b>	IRB 4400, IRB 6400
<b>Dimensions</b>	13.0 cm x 1.9 cm x 19.1 cm

### Description

The ABB 3HAB2214-1 is a Combi I/O module, also known as DSQC 315, designed for integration within ABB's S2-S3 robotic systems. This module facilitates the combination of input and output signals, streamlining communication between various components in robotic applications. Its compact design ensures efficient space utilization within control cabinets. The 3HAB2214-1 is engineered for reliability and longevity, making it a suitable choice for industrial automation environments where consistent performance is essential. Its compatibility with ABB's robotic systems underscores its role in enhancing operational efficiency and system integration.
