|-----------------------|----------------------------------|
| Manufacturer | Abb |
| Catalog number | 3hab2216-1 |
| Category | Industrial automation components |
| Product type | Industrial automation components |
| Status | Active product |

Technical specification

| | |
|---------------------|------------------------------------|
| Product Type | Rectifier Unit |
| Dimensions | 100 mm x 250 mm x 240 mm |
| Weight | 1.20 kg |
| Manufacturer | Abb |
| Part Number | 3HAB2216-1 |
| Category | Podzespoły automatyki przemysłowej |

Description

The ABB 3HAB2216-1 is a high-performance rectifier unit designed for industrial automation applications. Manufactured by ABB, a leader in automation technology, this component ensures efficient power conversion and reliable operation in various industrial environments. The 3HAB2216-1 is engineered to provide precise voltage regulation, making it ideal for systems requiring stable and consistent power supply. Its robust construction and advanced design contribute to enhanced system performance and longevity. This rectifier unit is suitable for integration into automation systems where power efficiency and reliability are paramount.
