

3HAB2220-1

Industrial automation components

Manufacturer	Abb
Catalog number	3hab2220-1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.30 kgs
Product Type	Memory Expansion Board
Memory Capacity	6 MB
Dimensions	25 mm x 25 mm x 3 mm
Compatibility	ABB S4 Robot Controllers (DSQC 317 Module)
Processor Speed	25 MHz

Description

The ABB 3HAB2220-1 is a memory expansion board designed for ABB's S4 robot controllers, specifically the DSQC 317 module. This 6MB memory board enhances the processing capabilities of the S4 controller, enabling efficient handling of complex robotic tasks. With dimensions of 25 mm x 25 mm x 3 mm and a weight of 0.25 kg, it is compact and lightweight, facilitating easy integration into existing robotic systems. The 3HAB2220-1 is a critical component for applications requiring advanced memory capacity, ensuring reliable and high-performance operation of ABB robotic systems.
