

3HAB7215-1

Industrial automation components

Manufacturer	Abb
Catalog number	3hab7215-1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.98 kgs
Product Number	3HAB7215-1
Brand	ABB
Category	ROBOTICS
Description	DSQC 331 PANEL BOARD SET
Dimensions	50 mm x 230 mm x 200 mm
Weight	1.00 kg

Description

The ABB 3HAB7215-1, also known as DSQC 331, is a panel board set designed for ABB's S4, S4C, and S4C+ robot control systems. This module serves as a critical component in industrial robotics, providing essential control functionalities for precise and efficient operation in manufacturing environments. The unit measures 50 mm in height, 230 mm in length, 200 mm in width, and weighs 1.00 kg, making it suitable for integration into various robotic setups. Its robust design ensures reliable performance, contributing to the overall efficiency and safety of robotic operations. This module is ideal for applications requiring high-performance control systems in industrial automation settings.
