

3HAB8859-1

Industrial automation components

Manufacturer	Abb
Catalog number	3hab8859-1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.05 kgs
Product Type	Power Supply Bar
Brand	ABB
Part Number	3HAB8859-1
Category	Industrial Automation Components
Subcategory	Robotics
Weight	0.05 kg

Description

The ABB 3HAB8859-1 is a power supply bar designed for use with ABB's S4, S4C, and S4C+ robotic systems. This component ensures stable and reliable power distribution within the robot's electrical system, contributing to optimal performance and longevity.

Manufactured by ABB, a leader in industrial automation, the 3HAB8859-1 is engineered to meet high-quality standards, making it a suitable choice for maintenance, replacement, or life-cycle support of existing ABB automation systems. Its robust construction and precise design make it ideal for various industrial applications where consistent power supply is critical. Please note that specific technical specifications such as voltage, current, and dimensions are not provided in the available sources. For detailed technical information, it is recommended to consult ABB's official documentation or contact an authorized ABB distributor.
