

## 3HAC023447-001

Industrial automation components

<b>Manufacturer</b>	Abb
<b>Catalog number</b>	3hac023447-001
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Weight</b>	0.24 kgs
<b>Product Type</b>	I/O Computer Module
<b>Input Voltage</b>	24 V DC
<b>Operating Temperature</b>	-20°C to +60°C
<b>Dimensions</b>	75mm x 90mm x 40mm
<b>Weight</b>	0.1 kg

### Description

The ABB 3HAC023447-001 is a high-performance I/O computer module designed for seamless integration into ABB's advanced automation systems. This module enhances control, communication, and operational efficiency across a wide range of industrial applications. Known for its robust construction, the 3HAC023447-001 is a key component in optimizing performance, reliability, and scalability in automation processes. Key features include support for multiple communication protocols, ensuring compatibility with various industrial networks. Its compact design allows for flexible installation in diverse environments, making it suitable for both new installations and system upgrades. The module's energy-efficient design reduces operational costs without compromising on performance, making it an ideal choice for sustainable manufacturing solutions. Additionally, comprehensive diagnostic features facilitate quick troubleshooting and maintenance, minimizing downtime and maximizing productivity. Whether you're upgrading existing systems or implementing new automation solutions, the ABB 3HAC023447-001 offers the reliability and performance needed to meet the demands of modern industrial operations.
