

3HAC025338-002

Industrial automation components

Manufacturer	Abb
Catalog number	3hac025338-002
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	2.47 kgs
Product Type	Servo Drive Unit
Brand	ABB
Part Number	3HAC025338-002
Application Area	Industrial Automation
Compatibility	ABB IRC5 Controller

Description

The ABB 3HAC025338-002 is a high-performance servo drive unit designed for precise motion control in industrial automation applications. Manufactured by ABB, a leader in industrial automation solutions, this servo drive is integral to the operation of ABB's IRC5 robot controllers, ensuring smooth and accurate movement for robotic systems. Key features include compatibility with ABB's IRC5 controller, robust construction for industrial environments, and efficient energy management. This servo drive is suitable for various applications requiring precise motion control, such as robotic arms and automated machinery. Its design emphasizes reliability and performance, making it a critical component in advanced automation systems.
