

3HAC026114-005

Industrial automation components

Manufacturer	Abb
Catalog number	3hac026114-005
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	ABB
Part Number	3HAC026114-005
Product Type	Reduction Gear Module
Robot Model Compatibility	IRB 6620, IRB 6640
Weight	207.23 lbs

Description

The ABB 3HAC026114-005 is a reduction gear module designed for use with ABB's IRB 6620 and IRB 6640 industrial robots. This component, identified by the part number 3HAC026114-005, is part of ABB's IRB660/IRB6600 range, which is known for its high-performance robotic solutions. The RV-320C-191.35 reduction gear is engineered to provide precise motion control, ensuring optimal performance and reliability in robotic applications. This module is manufactured by ABB, a leading provider of industrial automation components, and is available through various authorized distributors. For detailed specifications and compatibility information, it is recommended to consult ABB's official product documentation or contact an authorized ABB distributor.
