

3HAC026254-001

Industrial automation components

| | |
|-----------------------|----------------------------------|
| Manufacturer | Abb |
| Catalog number | 3hac026254-001 |
| Category | Industrial automation components |
| Product type | Industrial automation components |
| Status | Active product |

Technical specification

| | |
|------------------------------------|-------------------------|
| Weight | 0.09 kgs |
| Product Type | Power Distribution Unit |
| Product Family | DSQC 662 |
| Weight | 0.42 kg |
| Dimensions | 120 x 60 x 120 mm |
| Operating Temperature Range | -20 to +60 °C |

Description

The ABB 3HAC026254-001, also known as the DSQC 662 Power Distribution Unit, is a critical component in ABB's IRC5 industrial robot control system. Designed to ensure reliable power distribution, it plays a vital role in maintaining the operational efficiency of ABB robotic systems. This unit is engineered to withstand the demanding conditions of industrial environments, providing consistent performance and durability. Its compact design allows for seamless integration into existing automation setups, making it an essential part for maintaining the reliability and longevity of ABB robotic applications.
