Ask about this product

Manufacturer	Abb
Catalog number	3hac030162-001
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	ABB
Part Number	3HAC030162-001
Product Type	Safety Board
Input Voltage	24 VDC
Output Frequency	10 kHz
Operating Temperature Range	-10°C to 45°C
Storage Temperature Range	-20°C to 60°C
Current Rating	2 A
Compliance Standards	EN 954-1, EN 61800-5-2, EN ISO 13849-1

Description

The ABB DSQC 400 Safety Board, model 3HAC030162-001, is a specialized industrial control module designed to enhance safety in critical automation systems. This board integrates seamlessly into ABB's comprehensive line of programmable logic controllers, providing advanced safety functionality. It features an integrated EtherCAT interface, ensuring seamless communication with other components within your automation system, facilitating fast and reliable data exchange. Its robust design withstands harsh industrial conditions, ensuring long-lasting performance even in challenging environments. The DSQC 400 3HAC030162-001 supports a wide range of input and output types, allowing for flexible configuration tailored to specific application requirements. Whether you need to monitor critical signals or control actuators, this safety board offers the necessary capabilities to meet your needs. With its compliance to international safety standards, including EN 954-1, EN 61800-5-2, and EN ISO 13849-1, the ABB DSQC 400 3HAC030162-001 Safety Board provides assurance of safety
