

3HAC12815-1

Industrial automation components

Manufacturer	Abb
Catalog number	3hac12815-1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.05 kgs
Cable Specification	1 × 11
Product Type	Drive
Signal Level	24 V
Weight	0.4 kg
Dimensions	142 x 100 x 40 mm
Manufacturer	Abb
Part Number	3HAC12815-1
Category	Podzespoły automatyki przemysłowej

Description

The ABB 3HAC12815-1, also known as the DSQC 601 Axis Computer, is a high-performance module engineered for seamless integration into complex industrial automation systems. Designed to enhance control and monitoring capabilities, it ensures optimal system performance and reliability in demanding environments. This module is compatible with ABB's Robot and Motion Systems, making it ideal for applications requiring precise control over actuators, sensors, and other devices. Its robust construction and advanced diagnostics tools facilitate easy integration and maintenance, contributing to increased operational efficiency. The DSQC 601 Axis Computer is part of ABB's extensive PLC family, offering compatibility with a wide array of ABB control systems. Its modular design allows for easy expansion and customization, catering to diverse application needs across different industries.
