

3HAC12928-1

Industrial automation components

Manufacturer	Abb
Catalog number	3hac12928-1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	1.20 kgs
Current	5 A
Signal Type	230
Signal Level	230 V
Relay Specifications	230 VAC
Voltage	230 V

Description

The ABB 3HAC12928-1, also known as the DSQC 604 Power Supply, is a high-performance module designed for seamless integration into industrial control systems. Manufactured by ABB, a leader in industrial automation, this power supply ensures stable voltage delivery and enhanced system reliability. It is engineered to withstand harsh industrial environments, providing long-lasting durability and reduced maintenance requirements. The DSQC 604 Power Supply is compatible with various ABB controllers, including the IRC5 Controller, making it a versatile choice for automation applications. Its compact design and robust construction ensure it seamlessly integrates into various industrial environments, offering unparalleled performance. For detailed specifications and compatibility information, refer to the official ABB product page.
