

3HAC14549-2

Industrial automation components

Manufacturer	Abb
Catalog number	3hac14549-2
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	1.94 kgs
Product Type	Rectifier Module
Application Area	Industrial Automation, Robotics
Dimensions	15.0 x 15.0 x 17.0 cm
Weight	2.0 kg
Manufacturer	ABB

Description

The ABB 3HAC14549-2 is a high-quality rectifier module designed for industrial automation applications, particularly in robotic systems. Manufactured by ABB, a leader in industrial automation, this module is integral to the efficient operation of ABB's IRB 6600 robot series. It serves as a crucial component in the power supply system, ensuring stable and reliable performance. The 3HAC14549-2 is engineered to meet rigorous industry standards, offering durability and longevity in demanding environments. Its compact design facilitates easy integration into existing systems, making it a preferred choice for enhancing the performance and reliability of industrial automation setups.
