

## 3HAC17973-1

Industrial automation components

<b>Manufacturer</b>	Abb
<b>Catalog number</b>	3hac17973-1
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Weight</b>	0.68 kgs
<b>Manufacturer</b>	Abb
<b>Current</b>	332 A
<b>Product Type</b>	Module
<b>Relay Specifications</b>	332 A

### Description

The ABB 3HAC17973-1, also known as DSQC332A, is an I/O unit designed for industrial automation applications. Manufactured by ABB, this module facilitates the integration of input and output signals within automation systems, ensuring efficient data exchange between various components. It is particularly suitable for use in robotic control systems, where reliable and precise signal processing is essential. The module's robust design and compatibility with ABB's automation platforms make it a valuable component for enhancing system performance and reliability.
