

3HNE00001

Industrial automation components

Manufacturer	Abb
Catalog number	3hne00001
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	ABB
Part Number	3HNE00001
Product Type	Ethernet Network Card
Compatible Controllers	S4, S4C, S4C+
Application Area	Industrial Automation

Description

The ABB 3HNE00001, also known as DSQC 336, is an Ethernet network card designed for ABB's S4, S4C, and S4C+ robot controllers. This module facilitates high-speed communication between the robot controller and external devices, ensuring seamless integration within automated systems. Key features include robust data transmission capabilities, compatibility with ABB's S4 series controllers, and a compact design suitable for various industrial environments. The DSQC 336 is essential for applications requiring reliable and efficient network connectivity in robotic automation processes.
