

ACS150-01E-04A7-2

Industrial automation components

Manufacturer	Abb
Catalog number	acs150-01e-04a7-2
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	200 - 240 V
Current	4.7 A
Frequency	50 - 60 Hz
Component Specifications	acs150
Interface Type	profinet
Product Type	Inverter
Signal Level	240 V
Power	11 W
Signal Type	240
Relay Specifications	240 VAC

Description

The ACS150-01E-04A7-2 inverter from ABB is a sophisticated device designed for efficient power management in industrial applications. It operates within a voltage range of 200 to 240 V and a current of 4.7 A, delivering a power output of 11 kW. Supporting frequencies of 50-60 Hz, it offers versatility for various applications. Equipped with a Profinet interface, it ensures seamless integration with automation systems. The ACS150 component specification and a signal level of 240 provide reliability and performance in demanding industrial environments.
