Manufacturer	Abb
Catalog number	acs800-04-0025-5p901
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	ABB
Part Number	ACS800-04-0025-5+P901
Product Type	Variable Frequency Drive
Power Rating	18.5 kW
Current Rating	34 A

Description

The ABB ACS800-04-0025-5+P901 is a high-performance variable frequency drive (VFD) designed for industrial automation applications. Manufactured by ABB, a global leader in industrial automation, this drive offers precise control over motor speed and torque, enhancing operational efficiency and energy savings. Key features include a maximum continuous power output of 18.5 kW and a maximum continuous current of 34 A, making it suitable for demanding applications requiring reliable and efficient motor control. The drive is part of the ACS800 series, known for its advanced control capabilities and robust design. Its compact dimensions and user-friendly interface facilitate easy integration into existing systems, while its durable construction ensures long-term reliability in various industrial environments. The ACS800-04-0025-5+P901 is ideal for applications such as conveyor systems, pumps, and fans, where precise speed control and energy efficiency are paramount.
