Manufacturer	Abb
Catalog number	acs880-01-038a-3e200k454p904
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Low-voltage industrial wall-mounted single drive
Nominal Output Power	18.5 kW
Maximum Output Current	38 A
Input Voltage Range	380–415 V
Maximum Output Frequency	500 Hz
EMC Filter	Grounded network EMC C3 filter
Control Panel	ACS-AP-W Bluetooth control panel

Description

The ABB ACS880-01-038A-3+E200+K454+P904 is a low-voltage industrial wall-mounted single drive designed for demanding applications. This drive offers a nominal output power of 18.5 kW and a maximum output current of 38 A, ensuring reliable performance in various industrial settings. It operates within a voltage range of 380–415 V and supports a maximum output frequency of 500 Hz, providing versatility for different operational requirements. The drive is equipped with a grounded network EMC C3 filter, enhancing its electromagnetic compatibility and reducing interference in sensitive environments. Additionally, it features the ACS-AP-W Bluetooth control panel, facilitating convenient remote monitoring and control. This model serves as a replacement for the ACS800 series, offering improved efficiency and advanced features to meet modern industrial automation needs.
