

DKL01501

Industrial automation components

Manufacturer	Abb
Catalog number	dkl01501
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Current	3 A
Frequency	50 - 60 Hz
Component Specifications	dkl01501
Product Type	Drive
Signal Type	400
Relay Specifications	400 VAC
Voltage	400 V
Signal Level	400 V

Description

The DKL01501 is an advanced industrial drive from ABB, designed to operate at a voltage of 400V and a current of 3A. The device supports frequencies ranging from 50 to 60 Hz, making it a versatile solution for various applications. The component specification of DKL01501 ensures high reliability and performance, with both the signal level and signal type also at 400. This drive is ideal for applications requiring precise control and energy efficiency.
