

DSA0-130

Industrial automation components

Manufacturer	Abb
Catalog number	dsao130
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	0 - 10 V
Channel Configuration	16
Product Type	Module
Measurement Range	0 - 10
Signal Level	10 V

Description

The DSA0-130 module from ABB is an advanced device designed for precise signal measurement and control. It features a 16-channel configuration and a measurement range from 0 to 10, making it an ideal solution for applications requiring flexibility and accuracy. The operational voltage ranges from 0 to 10, and the signal level reaches 10, ensuring high signal quality in various industrial applications.
