Manufacturer	Abb
Catalog number	mod600clecmir
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Communication Module
Communication Protocol	IEC 61850 Edition 2
Compatible Modules	Digital Input, Digital Output, Analog Modules
Module Type	Communication Module
System Compatibility	RIO600
Communication Protocols	IEC 61850, Modbus TCP/IP
Configurable I/O Channels	Up to 40
Mounting Type	DIN Rail

Description

The ABB MOD600CLECMIR is a communication module designed for the RIO600 Remote I/O system, facilitating seamless integration and communication within industrial automation networks. This module supports IEC 61850 Edition 2 and offers a multimode fiber-optic LC interface, ensuring high-speed and reliable data transmission. It is compatible with various I/O modules, including digital input, digital output, and analog modules, providing flexibility in system configuration. The MOD600CLECMIR is suitable for applications requiring robust and efficient communication solutions in industrial settings.
