

SPCIS22

Industrial automation components

Manufacturer	Abb
Catalog number	spcis22
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Module
Industrial Safety	plc
I/O Configuration	4
I/O Channels	4 AI
Safety Level	plc

Description

The SPCIS22 module from ABB is an advanced device designed for industrial applications. It features 4 analog inputs, allowing for flexible configuration of automation systems. The use of PLC safety level ensures reliability and protection in harsh industrial environments. The module is characterized by high performance and is an ideal solution for complex applications requiring precise measurement and control.
