|                             |             |
|-----------------------------|-------------|
| <b>Current</b>              | 8 A         |
| <b>Relay Specifications</b> | 240 VAC     |
| <b>Voltage</b>              | 200 - 240 V |
| <b>Horsepower</b>           | 2 HP        |
| <b>Product Type</b>         | Drive       |
| <b>Signal Type</b>          | 240         |
| <b>Signal Level</b>         | 240 V       |

### Description

The Allen-Bradley 160-AA08NPS1 drive is designed for industrial applications, offering an operating voltage range of 200-240 V and a current of 8 A. Its motor power is rated at 2 kW, making it an ideal solution for various applications. The signal type and signal level are both at 240, with the relay specification also based on this level. This device ensures reliability and efficiency in demanding working conditions.
