

1755-A6

Industrial automation components

Manufacturer	Allen-Bradley
Catalog number	1755-a6
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	3.3 V
Current	10 A
Power Supply Type	DC
Relay Specifications	10 A
Industrial Safety	plc
Signal Type	3
Signal Level	3 V
Safety Level	plc

Description

The 1755-A6 is an advanced DC power module with a voltage of 3.3V and a current rating of 10A, designed for use in industrial automation systems. It features PLC safety functions and supports signals at level 3, making it suitable for complex industrial applications.
