

1771-IBD

Industrial automation components

Manufacturer	Allen-Bradley
Catalog number	1771-ibd
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.43 kgs
Voltage	10 - 30 V
Product Type	Module
Manufacturer	Allen-bradley
Signal Level	30 V
Signal Type	30

Description

The Allen-Bradley 1771-IBD is a 16-point digital input module designed for use with the PLC-5 series programmable logic controllers. Operating within a voltage range of 10 to 30 V DC, it features sinking input logic and is compatible with all 1771 I/O chassis except models 1771-A1, -A2, and -A4. This module is ideal for interfacing with field devices such as switches, sensors, and auxiliary contacts, providing reliable digital input processing for industrial automation systems.
