Description

The 1771-0AN module from Allen-Bradley is designed to operate within a voltage range of 120 to 240 V and a current of 1 A. It features a measurement range from 80 to 265, making it a versatile solution for industrial applications. The signal type and signal level are both 265, ensuring high precision in operation. The relay specification also stands at 265, confirming its reliability in challenging operational conditions.
