

## 1772-LXP

Industrial automation components

<b>Manufacturer</b>	Allen-Bradley
<b>Catalog number</b>	1772-lxp
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Weight</b>	1.36 kgs
<b>Voltage</b>	240 V
<b>Frequency</b>	50 - 60 Hz
<b>Temperature</b>	4
<b>Product Type</b>	Module
<b>Signal Type</b>	5
<b>Current</b>	4 A
<b>Industrial Safety</b>	plc
<b>Signal Level</b>	5 V
<b>Safety Level</b>	plc

### Description

The Allen-Bradley 1772-LXP is a Mini-PLC-2/16 processor module designed for industrial automation applications. Manufactured by Allen-Bradley, this processor offers a program capacity of 4K words and supports up to 512 digital inputs and outputs, making it suitable for complex control systems. It operates on a 120/240V AC power supply and features a self-contained lithium battery that maintains memory for up to one year without AC power. The module is housed in a compact form factor, weighing approximately 1.36 kg, and is compatible with various I/O modules, providing flexibility in system configuration. This processor is ideal for applications requiring reliable and efficient control solutions in industrial settings.
